To Whom It May Concern,

I am a resident of the Live Oak Neighborhood in Castaic and attended the community panel held at College of the Canyons on July 18, 2025. While I appreciated the efforts made, I came away from the meeting wondering why there wasn't a feeling of more urgency. Your "concepts" should be reworded to be "strong recommendations" and you should act accordingly. There needs to be more urgency at helping establish rules for landfills so that this situation is handled more appropriately in the future. All I could think as I looked through the handout was how our community wouldn't be in this situation if all these "concepts" had already been in place. Sadly I feel that there is not a sincere concern for our community.

I also would like to hear a brief statement on where the progress is regarding "concepts" at our CAC meetings held once a month.

Thank you,

Concerned Castaic Resident in Live Oak
